

SISCY BLU IN FUTURE NOW

WHERE BUSINESS MEETS HUMOR

WHAT DISTINGUISHES ARTIFICIAL INTELLIGENCE FROM MAN?

HUMOR.

Digitalization in the 21st century is a challenge to each and every one of us, and this show hits the digital nail right on it's digital head.

With a charming smile, a wink and empowering stage presence **SISCY BLU** presents technological trends and products. Your guests will be bowled over by the interesting humorous content of this show.

One of the main highlights is the talking and dancing robot Torbi. Between them, **SISCY BLU** and Torbi, make a great presentation team.

This tightly packed show will give you an awesome overview of what's new and good to know about digitisation.

TOPICS INCLUDES

DIGI-PHYSICS

Merging the physical with the digital world.

HUMAN ENHANCEMENT

The optimisation of humanity and health.

ARTIFICIAL INTELLIGENCE AND ROBOTICS

Humanity at the interface of a new era.

ADVICE AND BOOKING: +49 179 208 34 85

45 minutes of fireworks for your neurons.

Even the future itself has no clue of what's coming. But **SISCY BLU** has devoted herself to the highly topical themes "Trends of the Future" and "Digital Transformation" for her Keynote Show.

The show has a modular structure and can be easily adapted to your event according to your needs.

100.000 Euro of research and development has been invested. 5 years of trendhunter experience at BMW and a cooperation with leading futurologists guarantees you updated and interesting content.

You can book **FUTURE NOW** in English or German.

BE PRESENT TO SHAPE A GREAT FUTURE. WITH CHRISTINE ASTOR

Future is always exciting.

Life experience taught Christine Astor, that many things are projectable. If you are clear about your goals and wishes and if you are willing to do something for it. Nevertheless, there are happenings you cannot change. They just come into your life. Such as digitisation.

One of her deeper insights is:

Future will turn into a good one, if we can overcome disbelief, doubts and learn how to deal with things you cannot change.

In the digital age one should learn how to anticipate and react to digital disruption instead of being scared.

Christine Astor gives you with Future Now an overview of what is coming or is already there. And the opportunity to stay open and positive about the future.

ADVICE AND BOOKING: +49 179 208 34 85

Christine Astor spent 5 years as a technology trend scout at BMW's research and innovation department. This is the solid base for the content of „Future Now“.

And she spent 14 years at the R&D strategy department at BMW. As a charming entertainer, she has what it takes to deliver such complex content in a convincing, enjoyable and humorous way.
